

Faculty conversation:

TQT studies – This is the end!

A debate

23rd September 2015, 6.00 to 9.30 pm
Royal College of Physicians, London

Dr Borje Darpo

Why should we think of alternatives to TQT studies?

Dr Rashmi Shah

Why should we keep TQT studies?

chaired by Dr Peter Dewland

Recently, the FDA, other regulatory bodies, and pharmaceutical companies have been exploring options to replace TQTs with preclinical testing or with data collected during standard Phase I trials.

Join colleagues from the FPM and also the British Pharmacological Society and Association for Human Pharmacology in the Pharmaceutical Industry to debate the current scientific, regulatory and safety issues around TQT studies and potential alternatives.

Registration fee (includes dinner and drinks):
£65

Reserve online at www.fpm.org.uk/newsevents/facultyevents
